Enplus Inc.

Enplus Inc. Achieves ISO 27001:2013 ～ Certification for Information Security Management ～

Enplus Inc. (“Enplus” or “The Company”) announced today that the company has achieved ISO/IEC 27001:2013, JIS Q 27001:2014, certification for Information Security Management Systems (ISMS). The certification and audit process was conducted by **LRM corporation** and registered with **BSI Group Japan**. This recognition demonstrates Enplus’ commitment to information security and certifies that the company’s operations comprise the facilities, people, processes and systems to provide secure services to its clients in accordance with the ISO 27001 standard.

Enplus meets the International Organization for Standardization (ISO) requirements for a documented and implemented system to identify, manage and reduce risks to information security at all levels, and in all areas of the business. It also demonstrates that Enplus is capable of providing continuous service improvement to its clients, taking a risk-based approach to ensuring best delivery outcomes for clients.

Ms. Kana Kumoshita, Enplus President stated that "The protection of information security is paramount in fulfilling our mission to contribute to the globalization of society by removing the barriers and stress people face when relocating to Japan. This achievement signifies our leadership as a relocation services company by ensuring end-to-end quality management as well as information security across the core services we deliver.

Through the certification for ISO/IEC 27001 for ISMS, our clients can be confident that Enplus will provide continuous improvements, while emphasizing customer satisfaction and ensuring controls are in place to protect their information in terms of confidentiality, integrity and availability.”.

The ISO/IEC 27001 certification supports the Enplus vision “More Value, Less Barrier”, and the company’s overall compliance methodology for technology, employee education, corporate governance and organizational structure.
